

Comanche Cub Pack

Comanche Cub pack has twenty four members; quite a few have recently moved up from the two Beaver Colonies, so we have quite a lot of younger members at the moment.

The cubs have joined in with two camps in the past year; at the Scout Hut in September and at Boyd Field in late November (along with the Cherokee Cubs). The boys and girls enjoyed fire lighting (as always), fishing, air rifle shooting, climbing and lots of outdoor games.

Last autumn several of the Cubs raised £55.00 taking part in the Marie Curie 'Pots of Care' fundraising scheme. This involved decorating pots and planting them with spring bulbs.

Thank you to Zena Collings and her daughter Natasha, from St Johns Ambulance, they ran two sessions in February, helping the cubs to achieve their stage two First Aid badge. Among other things, the Cubs learnt how to treat a casualty for minor bleeding, burns, scalds and how to put them in the recovery position.

The boys and girls have enjoyed celebrating different festivals including Divali, Chinese New Year and Easter.

Everyone had fun exploring chemistry as part of the scientist badge. The Cubs carried out experiments involving eggs, flour, sugar, oil, lemons and raisins – the results did not involve anything edible however!

Over the last year the Cubs have also been thinking about recycling and the ways in which they can save energy and water; they continue to work towards their Global Challenge.

In the summer term ahead we are looking forward to making a scarecrow, a visit from the Police and lots of outdoor activities.
